2. History of the company

2.1. Brief history about the company's organization

Vinci Gestora de Recursos Ltda. ("Vinci Gestora") was organized in 2009, and it is a subsidiary of Vinci Partners Investimentos Ltda. mainly focused on the management of hedge funds, receivables funds and infrastructure funds. Management is focused on investments in Brazil and, in a smaller scale, on assets abroad.

2.2 Description of the material changes undergone by the company in the last five (5) years:

On January 15, 2021, Amendment No. 32 to the Articles of Organization of Vinci Partners Investimentos Ltda. ("VPI"), which is the direct controlling company of the Vinci Group, was executed to assign all membership units representing VPI's capital stock to Vinci Partners Investments Ltd. ("Vinci Investments") for the payment in full of the shares issued by Vinci Investment ("Amendment No. 32 to the Articles of Organization").

As a result of such assignments, Vinci Investment became the sole member of VPI, the direct controlling company of the asset management companies.

In this context, it should be noted that: (i) the corporate restructuring referred to above was concluded in preparation for the Initial Public Offering ("IPO"), allowing the company to go public and the listing of Vinci Investments' shares on Nasdaq on 01/28/2021; (ii) no change was made to the direct or indirect controlling interest of the Vinci Group; (iii) the IPO was a primary offering only, and despite the shareholding dilution resulting from the IPO, VPI former members have remained the holders of the majority capital and voting rights; and (iv) the structure of the executive board of Vinci Group's asset management companies, as well as the key-positions of its professionals remain the same,

On August 16, 2022, VPI, through its subsidiary Vinci Soluções de Investimentos Ltda., acquired the majority control of SPS Capital Gestora de Recursos Ltda., which then became a member of the Vinci Group.

On October 10, 2023, Vinci Investments and Ares Management Corporation ("Ares"), one of the world's leading alternative investment managers, announced a US\$100 million investment by Ares in Vinci Investments and the formation of a strategic partnership to support the growth and expansion of Vinci Investments' business in Latin America.

On June 28,2024, VPI, through its subsidiary Vinci Gestora de Recursos Ltda, acquired control of MAV Capital Gestora de Recursos SS Ltda, which then became part of the Vinci Group.

6.5. Describe the profile of the managers of portfolios in which the fund manager carries out fiduciary administration activities

Not applicable.

6.6. Provide any other information that the company deems relevant.

It should be noted that Vinci Gestora de Recursos Ltda. manages the Vinci Monalisa Fundo de Investimento Multimercado Crédito Privado Investimento no Exterior ("FIM Monalisa"), under the CNPJ No. 40.226.101/0001-08, with a net asset value of BRL 1,236,117,537.59 as of 12/31/2021, to which the proceeds from such Initial Public Offering ("IPO") made by Vinci Investments as referred to in item 2.2 above have been allocated.

According to the "use of proceeds" provision contained in the IPO documents, the proceeds from the IPO, currently allocated to the FIM Monalisa, shall be used "(i) to fund investments in our own products alongside our investors; (2) pursue opportunities for strategic transactions; and (3) for other general corporate purposes", taking into account that "amounts of any proceeds used to fund investments in our own products alongside our investors would be used to accelerate the growth of existing strategies within our business lines, though we could choose to direct proceeds towards the launch of new and complementary investment strategies for our long-term segments (such as private equity, infrastructure, real estate and credit) and our investment products in our more short-term segments (such as hedge funds, public equities and investment products and solutions). We would seek to allocate resources across products with the objective of achieving optimal returns for Vinci Partners and consequently our shareholders, through the combination of capital return and leverage of overall fundraising for our investment strategies."

Accordingly, investments by FIM Monalisa will be made in furtherance of the growth of the Vinci Partners Group, by promoting the development of new Vinci Partners Group products, such as: (i) allocating funds to meet the "skin in the game" requirement of the Vinci Partners Group asset managers, according to their own strategies, (ii) investing in the Vinci Partners Group products within the scope of anchor, seed capital or growth strategies; and (iii) seeking long-term profitability above the CDI interest rate, an average of interbank overnight rates in Brazil (daily

average for the period), with respect to short-term investments.

a) Roles and responsibilities of each body, committee and technical department

Management and Trading Desk

The officer in charge of portfolio management with the CVM is Fernando Lovisotto. Vinci Gestora has in place four Asset Management Teams with separate, individual governance and procedures, as follows:

1- The Credit Management Team relies on managers and a separate team of specialized analysts. It is responsible for originating, analyzing, and structuring transactions until

effective underwriting; setting up portfolios; allocating and negotiating private credit assets; and balancing and managing portfolios.

2- The three Hedge Fund Management Team rely on managers and specialized analysts, with independent investment processes, and focused on interest rates, foreign exchange, commodities, floating rates and foreign assets.

Credit Research – The department is headed by Mr. Marcello Almeida, founding parter of the Vinci Group. The team prepares studies and researches on credit assets, and it relies on professionals fully dedicated to corporate researches activities, in addition to specialized structured products analysists. It is principally in charge of assessing and suggesting limits for approval by the Credit Committee, controlling exposure and monitoring the fundamentals of issuers and underlying assets/collaterals, as detailed in the Policy on the Acquisition and Monitoring of Private Credit Asset.

Economic Department: The team is headed by partner and chief of strategy, José Carlos Carvalho, who also relies on other economists. The team has expertise in covering Brazil, Emerging Markets and G10.

b) As to the committees, their structures, the frequency of the meetings and how their decisions are recorded:

A Credit Committee is in place for credit funds. This Committee is in charge of approving transactions and it meets on an ad hoc basis whenever necessary to assess any new transaction. A Credit Monitoring Committee is also in place. It is in charge of monitoring the fundamentals of issuers and underlying assets/collaterals and it meets quarterly, or monthly or on an ad hoc basis, whenever necessary, depending on the relevant risk profile. Both committees are comprised of members from the Credit Research team, the portfolio management team, in addition to the Head of Credit and the CRO. The decisions of both Committees are recorded in memos.

The three Hedge Fund Management teams take part in two different meetings, which meet weekly: The Cash Meeting, which assesses allocations, follows up on markets and transaction risks; and the Macro Meeting, where studies on local and international scenarios are presented and where discussions on the political environment are held. The material used in both meetings is stored.

c) As to the members of the executive board, their individual roles and powers:

8.9. Provide information on the structure used to permanently check compliance with laws and regulations applicable to the company's activities and to monitor services provided by contracted third parties:

a. Number of professionals involved

The area is comprised of the Legal and Compliance Department, which is currently formed by four lawyers, one administrative assistant, one compliance officer, two compliance analysts and two trainess, in a total of ten professionals, in addition to the head of the department.

b. Type of activities conducted

Taking into account mainly the asset management activities, the Vinci Group's Compliance Program is principally focused on the following aspects: (i) confidentiality; (ii) segregated activities; (iii) personal investment policy; (iv) restrictions on trading activities; (v) fiduciary duties and conflicts of interest management; (vi) anti-money laundering and combating the financing of terrorism; (vii) anti-corruption; (viii) data privacy and protection; and (ix) whistleblowing channel.

The rules by which the Vinci Group's Compliance Department abides are set out in internal policies and manuals, which shall be followed by all workers, particularly: (i) Code of Ethics; (ii) Compliance Manual; (iii) Personal Investment Policy; (iv) Know Your Client, Anti-money Laundering and Combating the Financing of Terrorism Policy (KYC/AML); (v) Order Allocation Policy; and (vi) Anti-Bribery and Corruption Manual.

With respect to privacy matters, in accordance with the Brazilian general data protection act (the LGPD), we prioritize the protection of our clients' and business partners' personal data and use our efforts to constantly implement technical and organizational measures to guarantee that access to information is only given to workers on a need-to-know basis, with the purpose of avoiding cyber-attacks and leaks.

With the internal controls and policies that we have in place, we believe our governance system is apt to avoid conflicts of interest between different products and initiatives within the Vinci Group by clearly setting responsibilities and limits on our actions.

With respect to AML/CFT matters, the Compliance Department carries out background checks and "Know Your Client" procedures, and monitors suspicion transactions, in accordance with the applicable laws.

The new rule issued by the Brazilian securities and exchange commission – CVM on AML/CFT, CVM rule (*Resolução*) No. 50 of August 31, 2021 (rule (*Resolução*) No. 50), requires implementation of a risk-based approach for clients, products and services, as well as the setting up of an Anti-Money Laundering and Combating the Financing of Terrorism Committee (AML/CFT), as detailed below.

With respect to the anti-corruption act, internal rules require workers to report to the Compliance Department any meeting held with public officials. In addition, the Vinci Group intranet, which is available to all workers, has a whistleblowing channel that keeps the whistleblower's identity confidential and a gift policy. An external whistleblowing channel that keeps the whistleblower's identity confidential is also available for the general public. This channel is monitored by the Vinci Group Audit Committee.

Finally, the Compliance Department offers a training program that is held at least once a year to all workers, and every quarter to new workers, with the purpose of refreshing Compliance Program concepts and emphasizing any new relevant rules and regulations which may have been published in that period. For more information on the Compliance Department activities, see the Compliance manual and the Anti-Money Laundering and Financing of Terrorism Manual, available online.

c. Information system, routines and procedures involved.

The information systems used for the recording of asset transactions are proprietary systems and the systems used for compliance monitoring are third-party systems. This guarantees that the department remains fully independent from the fund management team.

The routines and procedures are described in item b above.

d. How the company guarantees that the department works with independence.

The Compliance Department answers directly to the Vinci Group Management and has full authority and independence to implement the Vinci Group Compliance Program, which guarantees that it acts with total independence, especially from the fund management team.

The Vinci Group also has a Compliance Risk Committee (CRC) in place to effectively enforce the Compliance Program and monitor the department's activities. Since 2019, the Committee has also been in charge of monitoring and supervising risk exposure.

Meetings are held at least once a semester or at shorter intervals, whenever necessary, upon call by any of the Committee's members. The Committee's meetings are recorded in minutes and any resolutions made at such meetings require the affirmative vote of the majority of the Committee's members.

Additionally, to adapt to the new CVM rule on AML/CFT (rule (*Resolução*) No. 50), the Vinci Group has set an Anti-Money Laundering and Combating the Financing of Terrorism Committee (AML/CFT), which is comprised of the Chief Executive Officer (CEO), the Chief Risk Officer (CRO), the Chief Compliance Officer (CCO), the Chief Financial Officer (CFO), and the Chief Human Resources Officer (CHRO) and whose purpose is to regulate and lay down the internal controls and procedures to be used and followed by the Vinci Group to apply the guidelines laid down in the AML/CFT policy and serve as reference to the Compliance Department, the Onboarding Departments and any other departments involved in such prevention and combat activities.

The Committee is also to approve any new Policies and Manuals on the subject and to decide whether a suspicious situation or transaction is to be reported to the Brazilian financial intelligence control unit – COAF (financial intelligence unit – UIF). If the Committee on a final basis decides not to report, it may adopt any AML/CFT risk mitigation measures it may seem fit.

8.10. Provide information on the structure in place for risk management purposes:

a. Number of professionals involved

The risk management area is currently comprised of four professionals in addition to the department Head (Chief Risk Officer - CRO).

- b. Type of activities conducted
 - Processing and monitoring the company's funds' liquidity and market risk;
 - Monitoring of market risk and liquidity limits, both operational and regulatory
 - Managing new developments and keeping resources and models available on the company's risk platform.
 - Risk reporting, both internally and to clients.
- c. Information system, routines and procedures involved.

The Vinci Group has in place a proprietary risk platform (VRA - Vinci Risk Allocation), which is comprised of the following systems:

- i. VERITAS:
- a) Risk Workflow: it measures the metrics used in monitoring the market risk (VaR with 95% and 99% confidence levels, daily return, one-year historical period, using historical simulation, parametric model, EWMA and ETL; stress test of simulated and historical scenarios), concentration and liquidity of portfolios as well as 'backtesting' the market risk model.
- ii. VORTEX:
- a) Due Diligence: enables to storage/search of information on entities and their executives.
- b) Risk ranking: it ranks different industry funds and/or assets according to different parameters.

- c) Traditional Analysis: it assesses the evolution of different asset and/or industry fund parameters.
- d) Back Test: it assesses the evolution of different parameters for simulated allocations.
- e) Satisfaction Analysis: it analyzes the investment return frequencies for different horizons.
- f) Custom Filter: it allows for thorough searches using a wide range of parameters.

To monitor the funds, the market risk department goes through the following routines and the frequency of such routines (daily, weekly or monthly) varies according to the portfolio market or the type of liability:

- i. Processing the funds in the Risk Workflow system to assess market and liquidity risks.
- ii. Producing market risk reports.
- iii. Producing liquidity risk reports.
- iv. Producing limit monitoring reports.
- v. Producing issuer concentration reports credit.
- d. How the company guarantees that the department works with independence.

The risk team answers directly to the Vinci Group Management and has full authority and independence to implement any measures that are necessary. This guarantees that the department acts with full independence, particularly with respect to the fund management team. Its activities are supervised by the Risk and Compliance Committee.

8.11. Provide information on the structure in place for purposes of treasury activities, control and processing of assets and bookkeeping of quotas.

Not applicable.

8.12. Provide information on the department in charge of distribution of investment fund quotas.

a. Number of professionals involved

The distribution department is comprised of the distribution officer and one commercial officers.

- b. Type of activities conducted
 - Client prospecting and attraction;
 - Defining investor profile (suitability);
 - Receiving clients' requests for application and redemption; and
 - Providing information on the products offered to clients.
- c. Training program for the professionals involved in the distribution of quotas

The Compliance Department offers a training program that is held at least once a year to all workers, and every quarter to new workers, with the purpose of refreshing Compliance Program concepts and emphasizing any new relevant rules and regulations which may have been published in that period, particularly those pertaining to the distribution of investment fund quotas.

d. Training program for the professionals involved in the distribution of quotas

The Vinci Group has in place a proprietary technology platform that aids distribution controls and that allows for transactions and control of clients' positions, in addition to the infrastructure for the recording of registrations arising from such activities.

e. The infrastructure available and a descriptive list of equipment, programs and services used in distribution

The Vinci Group has in place a proprietary technology platform that aids distribution controls and that allows for transactions and control of clients' positions, in addition to the infrastructure for the recording of registrations arising from such activities.

f. Information system, routines and procedures involved.

The information systems used to record and register transactions are proprietary systems. Routines and procedures are described in item b above.

8.13. Provide any other information that the company deems relevant.

Michel Cukierman, partner and director of Vinci Partners, has assumed new responsibilities within the Vinci Group. Consequently, Marcia Aversa, also a partner of Vinci Partners, has succeeded him as Head of Risk Management, effective December 20, 2023,

9. Company compensation

9.1. For each service provided or product managed, as described in item 6.1, describe the main compensation scheme used.

Vinci Gestora is engaged in the management of investment funds, receivables funds and managed accounts and therefore, it is paid a management fee and a performance fee.

9.2. Inform, with respect to the total revenue generated for the thirty-six (36) months preceding the base date used in this form, the percentage of the revenue generated by payments made by clients for the period, as a result of:				
a. management fees	85.8%			
b. performance fees	14.2%			
c. entry fee	0%			
d. exit fee	0%			

e. other fees 0%

9.3. Provide any other information that the company deems relevant.

Not applicable.

10. Rules, procedures and internal controls

10.1. Describe the policy used for selecting, hiring and supervising service providers.

Not applicable.

10.2. Describe how the costs with securities transactions are monitored and minimized.

As mentioned in the preceding items, Vinci Gestora has in place two Asset Management Teams with separate, individual governance and procedures.

The type of transactions (public or private offerings) and the negotiation environment (primary or secondary market) may vary according to the profile of each fund. Such aspects are taken into account by the Credit Management Team when planning the placement of orders and implementing asset desinvestment. For the secondary market, the Credit Management Team's orders must fulfill the standards of the relevant organized market and the costs incurred with those are included in the spread, as negotiated with the transaction broker, on a case-by-case basis. Therefore, the manager is apt to monitor and minimize costs and achieve proper spread conditions with different market players. For transactions in the primary market, costs are incurred by the asset issuer. The Credit Management Team's orders are also subject to strict assessment in terms of issuer's credit quality, price and liquidity of assets in the organized market, making sure that they adhere to the risk profile of each fund.

Transaction costs incurred with the Hedge Fund Management Team's business models include brokerage costs and fees incurred with securities trading and the trading price for fixed rate transactions. Such costs are monitored during the assessment of the services provided by the brokerage companies.

10.3. Describe the rules applicable to soft dollar, such as gifts, courses, trips, etc.

Under the Vinci Group's Compliance Manual, the Compliance Department must be informed whenever a soft dollar benefit (soft commission) is included in the negotiation of the service provided by the securities brokerage company, so that it may check for any conflict of interest as well as to ensure that any benefit granted is indeed channeled to the management activities and does not impact the Vinci Group's managers' investment decision, always in accordance with the market's best practices. If the benefit granted fulfills the criteria above, then the Compliance Department will approve the proposed deal.

10.4. Describe any adopted contingency, business continuity and disaster recovery plans.

10.4.1) Offices

Vinci has two main offices, one in Rio de Janeiro and one in São Paulo. The business continuity and disaster recovery plan adopted by the Vinci Group is based on its business processes and the location of the people involved. It also depends on whether the office is operational or not and on whether physical access is available or not.

In case of an incident involving our premises:

- Users can use the other Vinci location whenever physical presence is required.
- Information and systems can be accessed from a personal computer outside our offices through internet connection, as follows:
- By accessing the Microsoft cloud 365 environment.
- By accessing the CRM system.
- By setting up a VPN connection with the Vinci Partners network to use proprietary systems via the following methods:
- via remote access from the user's computer at the user's office.
- via remote access from a virtual desktop available at the outsourced Vinci Partners Datacenter.
- via corporate laptop.

Employees can access their desktops remotely on a daily basis and continuously. This way, the Vinci Group's IT team keeps track of the production environment and implements improvements and/or corrects any failures on a daily basis. Additionally, information is also backed up on a daily basis.

10.4.2) Data center

If servers are in external datacenters, the server's backup is made through hard disk records. In addition, servers are replicated to another Datacenter to be activated and used in case of a disaster in the primary Datacenter. We consider:

- RPO: one day
- RTO: five hours

10.5. Describe policies, practices and internal controls used for purposes of portfolio liquidity risk management.

As mentioned in the preceding items, Vinci Gestora has in place two Asset Management Teams with separate, individual governance and procedures.

For credits assets, liquidity monitoring includes assessment of the following elements: (ii) evolution of buy/sell spread, source of prices and market players for each asset involved; (iii) characteristics of the issuer and the bond ensuring potential liquidity (i.e., possibility to negotiate in the secondary market, in a short-term horizon, without significant impact on the asset price). It must be noted that asset liquidity is measured prior to acquisition of such asset by the Fund; and

such measurement is constantly updated based on the evolution of the fundamentals of the assets and markets.

Liquidity of the funds of the three Hedge Fund Management Teams is monitored by assessing liquidity of the assets comprising the portfolio. Criteria are based on the different types of financial assets that are allowed to be purchased under the Fund investment policy, considering that such financial assets are mostly focused on government bonds and floating rate assets, and a small part of them is comprised of creditsassets. The criterion used to control liquidity of Fund portfolio is each Fund redemption term. When this criterion is used, the desk sets a rate between the Fund redemption termand the percentage of the portfolio subject to settlement.

10.6. Describe the policies, practices and internal controls used for purposes of compliance with the specific rules referred to in item I of section 33, in case you decide to distribute the quotas of the investment funds that you manage or whose portfolio you manage.

The Vinci Group adopts the following policies, manuals and procedures: Onboarding Manual, Know Your Client, onboarding information validation and Anti-Money Laundering and Financing of Terrorism manual, Suitability Policy in addition to procedures for the exchange of information with the investment fund fiduciary manager.

10.7. Website where the documents required in section 16 of this rule (Resolução) can be accessed.

The documents required in section 16 of the CVM rule (Resolução) No. 21/2021 are available on the Vinci Group's website, at http://www.vincipartners.com/.
